

Optical

Design Paolo D'Arrigo

Disegni a spirale, illusioni ottiche ottenute tramite il colore, campiture cromatiche che sembrano generare movimento in un oggetto chiaramente statico; i principi fondativi dell'Optical Art si ritrovano in questo termoarredo che gioca sulla sovrapposizione del decoro ad uno sfondo. Disponibile anche con superficie a specchio per aumentare le funzionalità dell'elemento.

Spiral drawings, optical illusions obtained through colour, blocks of colour which seem to generate movement in a clearly static object: the fundamental principles of Optical Art are to be found in this design radiator which plays on the superimposition of the decoration on a background.

Also available with mirrored surfaces, increasing its functionality.

Arredobagno Italiano

Termoarredo in lamiera di alluminio e corpo radiante interamente realizzato in ottone, con sfondo uniforme e lamiera sovrapposta decorata con intagli laser.

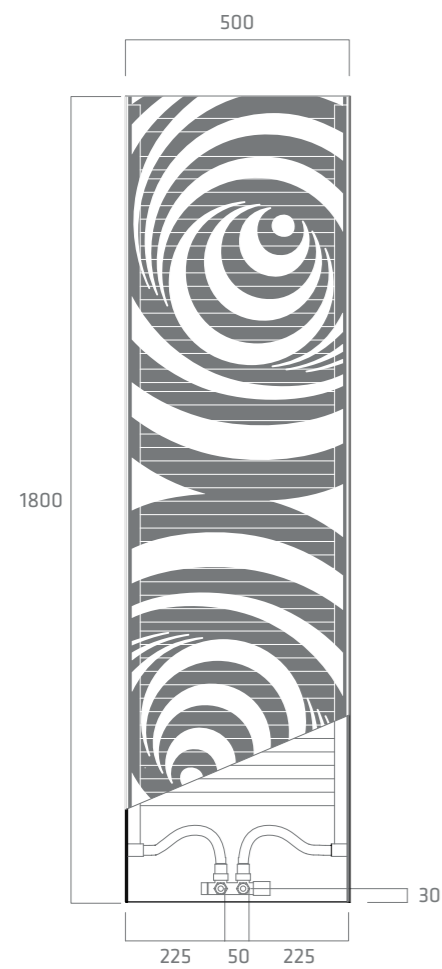

La cover intagliata è dotata di un sistema di fissaggio fast clean che ne permette lo sganciamento rapido per semplificare la pulizia del termoarredo.

Radiator with aluminium front panel and entirely brass made radiating element, with uniform background and superimposed panel with lasercut decorations.

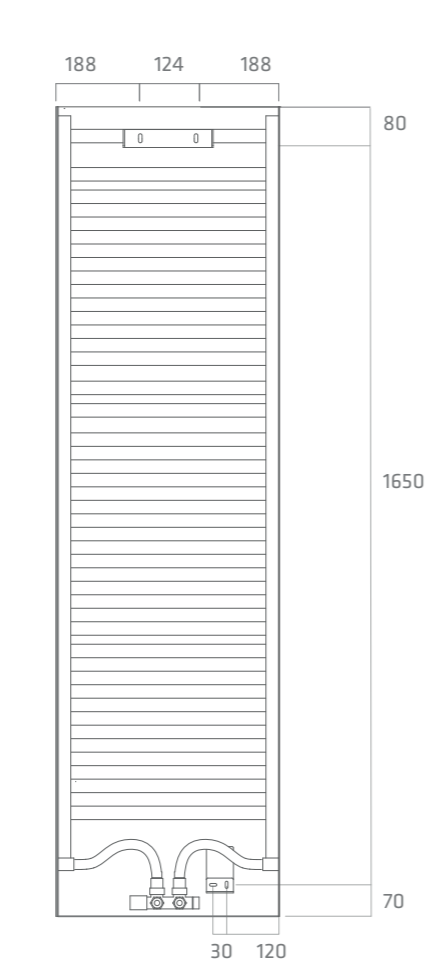

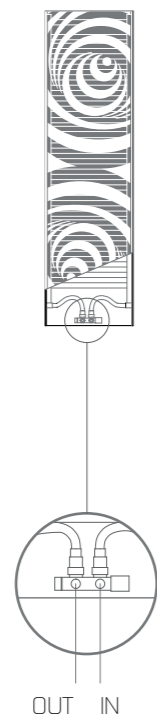

The cut-out cover is quickly removed to allow for the fast and easy cleaning of the radiator.
