Design Paolo D'Arrigo

Un rettangolo puro, una geometria assoluta, una superficie omogenea solcata solo da due "tagli" dall'andamento curvilineo ad altezze differenti che diventano pratici portasalviette: Infra è il radiatore dalla forma essenziale che sembra sorridere. Un modello unico (600x1800 mm), pensato per essere installato in verticale fra lavabo e bidet così da servire entrambi.

A pure rectangle, absolute geometry, a smooth surface interrupted by just two curved "gashes" cut out at different heights to serve as practical towel rails: Infra is the radiator with an essential design line which seems to be smiling at you. A single version (600x1800 mm), devised to be installed between washbasin and bidet so as to serve both.

# INFRA

Termoarredo con pannello frontale e corpo radiante interamente realizzati in alluminio, con portasalviette per lavabo/doccia e bidet intagliati.  
Radiator with front panel and radiant body entirely made of aluminium, with integrated towel rail for washbasin/shower and bidet.
