Arredobagno Italiano

Figure simili a piante e fiori, richiamo evidente allo “stile floreale” che contaminò l’arte a cavallo del Novecento e che in Italia venne definito Stile Liberty: Nouveau gioca con una superficie “intagliata”, che si sovrappone ad un volume puro, a creare un effetto decalcomania in rilievo, valorizzato dal contrasto cromatico fra il disegno e lo sfondo, proposto in colori differenti anche molto accesi.

Shapes recalling plants and flowers, clearly influenced by the “floral style” of art popular at the turn of the twentieth century, referred to as the Liberty Style in Italy: Nouveau plays with a “cut out” surface, which is then placed on top of a plain volume, creating a transfer effect in relief, enhanced by the contrasting colours of the drawing and the background, offered in a range of colours, including brights.
